

My Life in a Nutshell Cellphone Short

IPhone Users:

- Download Cameo app for Iphone.
- Familiarize yourself with the apps and view some of the pieces people have created
- Select a facet of your life (or several), and shoot well thought out shots that communicate what you are trying to say to the viewer.
- Use Cameo to edit and post your video. You can even select music to put under the video.
- Be creative ! Use a variety of shots.

Android Phone Users:

- Download a video editing app like FilmoraGo, Viddy or WeVideo or Magisto.
- Familiarize yourself with the app and view examples of finished products
- Select a facet of your life (or several), and shoot well thought out shots that communicate what you are trying to say to the viewer.
- Save your finished product to somewhere you can access it easy for viewing. You can send your finished piece as a MP4 or .mov file to tpiotrowski@acitech.org
- Be creative! Use a variety of shots

Forward the Link of your completed video to _____
