Note	Easiest for teachers Allows that even the host/set-up person leaves the meeting, the meeting can still continue. The meeting will only end when the last one leave the meeting.	Most functions The host can end the meeting. The "assignment" function can help the teachers to collect homework. Having the most functions.	Best video quality The host can end the meeting, or hand over the host job to somebody else.	Most convenient Also works with OBS *(Open Broadcaster Software)*. Must log in Facebook before watching.	Most viewers Can work with OBS which means support more streaming functions. Viewers don't need to log in to watch the video.

* the advanced video conferencing capabilities in Hangouts Meet, will be available to all existing G Suite customers until July 1, 2020.
